AGRICULTURAL SALINITY ASSESSMENT AND MANAGEMENT SECOND EDITION

agricultural salinity assessment and pdf

Soil salinity and dryland salinity are two problems degrading the environment of Australia. Salinity is a concern in most states, but especially in the south-west of Western Australia.. The Eastern Mallee and the Western Mallee of Western Australia are areas that are prone to salinity with little remedial action being undertaken to rectify the problem. . Lands surrounding Lake Bryde-East Lake ...

Salinity in Australia - Wikipedia

Agriculture is the science and art of cultivation on soil and the rearing of livestock. Agriculture was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that enabled people to live in cities. The study of agriculture is known as agricultural science. The history of agriculture dates back thousands of years; people ...
