BLOCKCHAIN BLOCKCHAIN SMART CONTRACTS INVESTING IN ETHEREUM FINTECH

blockchain blockchain smart contracts pdf

Blockchain-based smart contracts are proposed contracts that could be partially or fully executed or enforced without human interaction. One of the main objectives of a smart contract is automated escrow.An IMF staff discussion reported that smart contracts based on blockchain technology might reduce moral hazards and optimize the use of contracts in general.

Blockchain - Wikipedia

History. Smart contracts were first proposed by Nick Szabo, who coined the term. With the present implementations, based on blockchains, "smart contract" is mostly used more specifically in the sense of general purpose computation that takes place on a blockchain or distributed ledger. In this interpretation, used for example by the Ethereum Foundation or IBM, a smart contract is not ...
