Open Access journals are the major source of knowledge for young and aspiring generations who are keen in pursuing a career in sciences. This system provides easy access to networks of scientific journals. Authors that contribute their scholarly works to Open Access journals gain remarkable reputation as the research scholarly explore these works extensively.

BCA è un kit per l'analisi di proteine (BCA Protein Assay Kit) che permette di determinare la concentrazione di proteine in una soluzione. Il kit è composto da reagenti e buffer che reagiscono con le proteine, formando un complesso colorato che può essere misurato spettrofotometricamente. Il kit è adatto per l'analisi di proteine in soluzioni di estratti cellulari, sieri e altri liquidi biologici.

1. Introduction. Heavy metals are considered as low density chemical components those are highly toxic. Also, they are defined as metals with atomic weights between 63.5 and 200.6 g mol⁻¹ and a specific gravity greater than 5 g cm⁻³. These heavy metals are non-biodegradable, ubiquitously distributed, and lead to a greater risk to human health and environment, , , .

ABSTRACTWith the development of molecular marker technology in the 1980s, the fate of plant breeding has changed. Different types of molecular markers have been developed and advancement in sequencing technologies has geared crop improvement. To explore the knowledge about molecular markers, several reviews have been published in the last three decades; however, all these reviews were meant ...
