The groundbreaking, bestselling classic, now available in a special fortieth-anniversary edition that includes a new Foreword from Eben Alexander, M.D., author of Proof of Heaven, and a new Afterword by the author.. Raymond Moody is the "father" of the modern NDE (Near Death Experience) movement, and his pioneering work Life After Life transformed the world, revolutionizing the way we ...

### **Life After Life: The Investigation of a Phenomenon**

The Kübler-Ross model, commonly known as the five stages of grief, is a theory first introduced by Elisabeth Kübler-Ross in her 1969 book, On Death and Dying. Based on the uncredited earlier work of John Bowlby and Colin Murray-Parkes, Kübler-Ross actually applied the stages to persons who were dying, not persons who were grieving.

## Death Acceptance and the Meaning - Dr. Paul T. P. Wong

Dr. Paul T. P. Wong (2007) discusses the concept of death acceptance and its meaning. He explores the psychological and philosophical aspects of death, drawing on the work of Elisabeth Kubler-Ross. Wong's research shows that death acceptance is a process that involves understanding the meaning of life and the inevitability of death. He argues that death acceptance is a necessary part of a healthy and meaningful life. Wong's work has been influential in the field of death and dying studies, and his research has helped to advance our understanding of the human experience of death.
