where L PM, L C and L SI are labour inputs into perception and manipulation tasks, creative intelligence tasks, and social intelligence tasks.. We note that some related engineering bottlenecks can be partially alleviated by the simplification of tasks. One generic way of achieving this is to reduce the variation between task iterations.

Future studies or futurology is the science, art and practice of postulating possible, probable, and preferable futures and the worldviews and myths that underlie them. Futures studies seeks to understand what is likely to continue, what is likely to change, and what is novel. Part of the discipline thus seeks a systematic and pattern-based understanding of past and present, and to determine ...
