Semester 1. AC1034 Introduction to Financial Accounting (BCA101) This course gives hands-on training in fundamental accounting concepts as applied in service and merchandising firms.

Business Fundamentals | Northern College

A computer network is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as Wi-Fi.. Network computer devices that originate, route and terminate the data are called ...
