The use of Snapchat “a time-limited instant messaging service” has been rapidly rising amongst adolescents. However, the exact nature of Snapchat use remains difficult to examine due to the self-destructive nature of content sent and received via this service. We report an online survey conducted with the use of a memory sampling method to enquire about the specific details of the very ...

“What do they snapchat about?” Patterns of use in time

For each SKU, in addition to the historical sales series and statistical forecast, the screen displayed product details and between zero and four written statements which gave reasons as to why the level of sales uplift in the forthcoming promotional effect might be expected to be above or below the average (“positive” and “negative” reasons).

Use and misuse of information in supply chain forecasting

What is the greatest threat to humanity? We are, of course....and our technology. Like a dangerous weapon in the hands of a child, technology has overtaken our capacity to control potential consequences. Oxford University's Future of Humanity Institute, led by director Nick Bostrom, says we have entered this new kind of technological era that we have no track record of surviving.
