Department of Agriculture and Rural Development, Ministry of Agriculture, Forestry and Fisheries, Government of Zimbabwe

Conservation Agriculture (CA) is a production system that involves minimum soil disturbance, soil cover and crop rotation. It is a sustainable agricultural system that aims to improve soil health, reduce soil erosion, and increase crop yields. CA is a key component of conservation agriculture, which also includes crop rotation and cover crops. CA is a production system that involves minimum soil disturbance, soil cover and crop rotation.
