Process discovery PAGE 5 software system (process) model event logs models analyzes discovery records events, e.g., messages, transactions, etc. specifies configures implements analyzes supports/ controls enhancement conformance • people machines organizations components business processes

Process Mining: The 1 - cpntools.org

About the book. Next, Part III focuses on process discovery as the most important process mining task, while Part IV moves beyond discovering the control flow of processes, highlighting conformance checking, and organizational and time perspectives. Part V offers a guide to successfully applying process mining in practice,...

Process Mining <http://www.processmining.org/book/start>

problems. This keynote paper provides pointers to recent developments in process mining thereby clearly showing that process mining provides a natural link between processes and data on the one hand and performance and compliance on the other hand. Keywords: Process Mining, Process Discovery, Conformance Checking, Business Process Management.

MINE YOUR OWN BUSINESS: USING PROCESS MINING TO TURN BIG

On the one hand, discovery is just one of the three basic forms of process mining (discovery, conformance, and enhancement). On the other hand, the scope is not limited to control-flow; the organizational, case and time perspectives also play an important role.

Process Mining Manifesto - TU/e

There are three main types of process mining: process discovery, conformance checking, and enhancement. In [6], it is explained how automatic process discovery allows process models to be extracted from an event log; how conformance checking allows monitoring deviations by comparing a given model with the

Process Mining in Healthcare: A literature review

Process Mining: Discovery, Conformance and Enhancement of Business Processes is the research team's first book on process mining. Although published some time ago, it offers the most comprehensive overview of process mining.

Book Review: Process Mining: Discovery, Conformance and

LANA Process Mining is a process mining tool featuring discovery and conformance checking by Lana Labs. [31] Minit [32] is a Process Mining software offered by Minit j.s.a.
