Cold-formed steel (CFS) is the common term for products made by rolling or pressing steel into semi-finished or finished goods at relatively low temperatures (cold working). Cold-formed steel goods are created by the working of steel billet, bar, or sheet using stamping, rolling (including roll forming), or presses to deform it into a usable product.. Cold-worked steel products, such as cold ...

The Avro Blue Steel was a British air-launched, rocket-propelled nuclear armed standoff missile, built to arm the V bomber force. It allowed the bomber to launch the missile against its target while still outside the range of surface-to-air missiles (SAMs). The missile proceeded to the target at speeds up to Mach 3, and would trigger within 100 m of the pre-defined target point.

AS35 Composite Cladding Panels are insulated steel cladding which consists of two coated steel profiles bonded to a core of PIR insulation; they may be used to form roofs, down to a 4 degree pitch, and walls. The external faces have clean, sharp lines and the panels are available in an extensive range of finishes and colours.
