The Price of Inequality: How Today's Divided Society

Economic inequality covers a wide variety of topics. It can refer to either income distribution (measuring the amount of money people are paid) or the distribution of wealth, (the amount of wealth people own).. Besides measurements between countries or states, there are important types of economic inequality between groups of people.

An Overview of Growing Income - OECD.org

Educational inequality is the unequal distribution of academic resources, including but not limited to; school funding, qualified and experienced teachers, books, and technologies to socially excluded communities. These communities tend to be historically disadvantaged and oppressed. More times than not, individuals belonging to these marginalized groups are also denied access to the schools ...

The Consumer Price Index (CPI) is a measure of the average change over time in the prices paid by urban consumers for a market basket of consumer goods and services. Indexes are available for the U.S. and various geographic areas. Average price data for select utility, automotive fuel, and food items are also available.

This four-hour documentary series premiered nationally on PBS in Spring 2008, and will be rebroadcast Fridays at 10pm, October 9 through 30. Produced by California Newsreel in association with Vital Pictures, Inc. Presented by the National Minority Consortia of public television Public Impact Campaign in association with the Joint Center Health Policy Institute.

UNNATURAL CAUSES | About the series . Episode descriptions

Abstract: This paper shows that deviations from long-run price stability are optimal in the presence of price stickiness whenever profit and utility flows are discounted at a different rate. In that case, a monetary authority acting under commitment will choose a path for the inflation rate that ends with a non-zero value.

What this report finds: Income inequality has risen in every state since the 1970s and in many states is up in the post-Great Recession era. In 24 states, the top 1 percent captured at least half of all income growth between 2009 and 2013, and in 15 of those states, the top 1 percent captured all income growth.

The California Budget & Policy Center was established in 1995 to provide Californians with a source of timely, objective, and accessible expertise on state fiscal and economic policy issues.

California Budget & Policy Center - Independent analysis

The growth rate of world GDP, measured in US dollars and at current exchange rates, fell sharply from around 5.5% in 1970â€“80 to 2.3% in 1980â€“90 to 1.1% in 1990â€“2000. 4 This is bad news, environmental considerations aside. But it still grew a little faster than world population over the past two decades; and the (population-weighted) GDP of developing countries as a group grew a little ...
